Fri.-Sun., Nov. 9-11, 2018	Emergency Care and Safety Institute/BSA Wilderness First Aid	See course brochure	

Registration deadline for all Standard First Aid with Adult and Child CPR/AED and Professional Rescuer CPR with Standard First Aid courses is the Thursday 2 weeks prior to the scheduled course.

For wilderness first aid, see course brochure.

Every Scout deserves a trained leader.

For Wilderness First Aid, see www.bsaonsc.org for a copy of the brochure which is available for that course. **Online registration is not available for Wilderness First Aid.**

First Aid/CPR/AED

Includes First Aid, Adult & Child CPR, and AED. **Youth participants must be at least 14 years of age.**

Boy Scouts and Venturers under age 18 **must** attend with a buddy or appropriate adult partner to meet BSA Youth Protection guidelines.

Youth needing transportation home will contact a parent prior to end of course. Parents should plan to arrive within 30-40 minutes to pick up their Scouts. Scouts cannot be left without adult supervision.

Failure to comply may result in a future requirement that a parent be with the youth for the entire day.

CPRo

CPR for the Professional Rescuer

CPRo includes:

- Adult and Child CPR/AED
- Infant CPR
- Responsibilities of a professional rescuer
- Working with EMS
- Legal considerations

CPro is the minimum level CPR certification required to complete or maintain your BSA Lifeguard certification and for health officers at district or council events.

The Old North State Council is an
Education Center
for the

Emergency Care and Safety Institute

Training conducted through ECSI is accepted at any BSA activities and high adventure bases where these trainings are required.

Though Scouting uniforms are appropriate at any Scouting function, dress for all courses is casual. You will be practicing some skills on the floor/ground.

Wilderness First Aid

Wilderness First Aid is based on the **Boy Scouts of America *Wilderness First Aid Curriculum and Doctrine Guidelines*** and is provided through the **Emergency Care and Safety Institute**. “ECSI programs are offered in association with the American Academy of Orthopedic Surgeons (AAOS) and the American College of Emergency Physicians (ACEP).”

The ONSC requires WFA for leaders involved in council sponsored national high adventure activities.

WFA is open to adult volunteers and youth age 14 or older.

Youth members may register only on the recommendation of their unit leader.

Youth Protection guidelines must be adhered to. Co-ed groups and youth 14-18 are welcome, but must attend with an appropriate buddy or appropriate adult partner/leadership. For questions, contact Nita Grubbs at nita.grubbs@scouting.org or 336.378.9166.

Pre-requisites: Adult CPR/AED is **required and must be current through the last day of the course.**

*Brochures for Wilderness First Aid are available from the Scout office or council website at www.bsaonsc.org.
Online registration is not available for this course.*

Notice: Pocket cards are no longer available the day of the course. Course processing is now done online after completion of the training. Course certificates and pocket cards will be emailed after the course. This will allow for easy replacement in the event a card is lost or damaged. eBook is now an option for your textbook. Either the eBook or print textbook are required.

Please be sure your email address is legible on the sign in sheet!
