

Join us here at the Old North State Council building for one of two sessions. Come and go between stations in the building to see what is going on around the world!

Come as a Pack, Den, Troop or Crew. Bring your buddies that are not in scouting. We want you to get to meet, talk and play games with scouts from all around the world! Drop in for an hour or stay for the entire session, the choice is yours.

Bring your laptop or tablet. If you play/build on Minecraft, bring the device you play on, there is a special area just for this event in the Minecraft world! How awesome to get to meet folks at a virtual campsite and have some scouting adventures!

You are highly encouraged to bring your own device. You will have limited access to a device being brought by our event hosts, but if you have a portable device like a laptop we encourage you to bring it.

When you meet folks there you will be sharing some basic information just like you do when you meet at camp in real life. But we will also have a code that you will share that helps us track contacts around the world. That code we will give you the day of the event.

Don't miss it !!

POSTED BY **R MIDDELKOOP**

This year something new will happen.....

The Jamboree On The Air / Internet will be run for the first time just like a World Scout Jamboree. You can experience the same atmosphere and similar activities; all connected through amateur radio and internet. Without even leaving home! It is a true **"travel-free Jamboree"**.

Everything looks like a World Scout Jamboree. A map of the "campsite" links all the possible activities that participants can take part in, and a schedule tells them when activities in the "campsite activity tents" are taking place.

Upon registration at the **Main Gate**, participating groups receive a Jamboree Handbook to help navigate the map and the weekend schedule. They can then navigate the campsite and choose what areas they want to visit and when, according to their planned activities. The **Staff Camp** has all extra information to assist leaders with the activities. It also hosts the agenda of "special events" during the JOTA-JOTI weekend.

October 20, 2018

Session 1: 9-12

Session 2: 1-3

No Fee to participate

Please register as an individual or a unit so we can prep the space accordingly.

A glimpse of what will be available on the campsite:

A **Global Development Village** with activities for this years' main theme "Life on Land"

Subcamps with a large internet café and a game zone

A **Science Park** with all sorts of technical experiments and a radio base.

The **Challenge Valley** where you can try and challenge yourself and each other

The **Campfire Circle** where you can participate in different campfire talks by well-known Scout leaders

The **WOSM HQ** tent offers an insight into many of the other major Scout programmes around the world

The **Jamboree HQ**, where help is available for any possible problem.

and many more.....

Currently, your JOTA-JOTI camp site is under construction. Curious? You can already visit some parts of the new campsite and of course, **register** for the event at the Main Gate. Don't miss it. Click on the map:
