Tree Cookies (Tree Discs)

Tree Cookies (some people call them Tree Discs) are cut from tree trimmings. You can read the rings to discover the life history of the tree branch! Drill a hole in each tree cookie and use twine so that each child can decorate and then wear their creation as a natural necklace! Great for name tags, wood burning, coloring, etc.

2 sizes of tree discs:

**Standard** size tree discs are approximately 2"-3" in diameter; and 0.25" thick.

**Mini** tree discs are approximately 1.5"-2" in diameter; and 0.25" thick.
